

Connection method (Android)

<SSID : place_wifi>

Free Wi-Fi

SSID : place_wifi

1 Open "Wi-Fi Setting" from "Settings" and turn on Wi-Fi.

2 Select the SSID of "place_wifi"

3 The portal screen is automatically displayed.

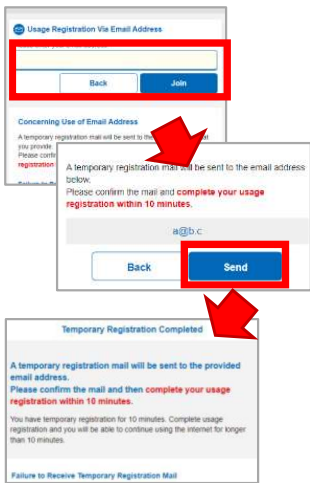

4 Select a registration method and tap "mail address"→5 "SNS account"→7

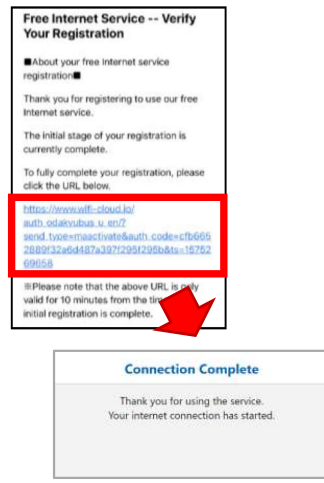

mail address

5 Enter your email address and press "Join" and "Send" to complete the temporary registration (receive email)

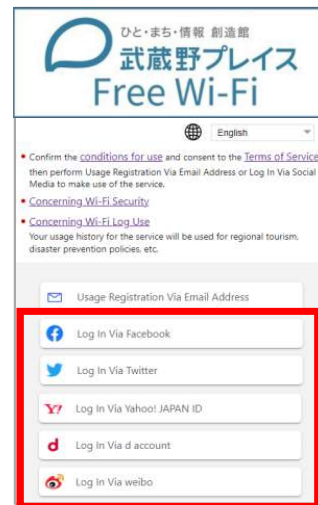

6 Tap the URL in the received email to complete the official registration →Connection complete

SNS account

7 Tap the SNS you want to use for authentication

8 Enter the login information for each SNS account and tap "Login" →Connection complete

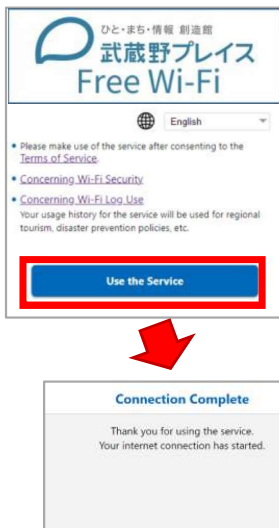

9 After the connection is completed, the following screen will be displayed

Second time or later

Tap "Use the Service" →Connection complete

? If the Wi-Fi service login screen is not displayed:

■ Is your device connected to Wi-Fi?

If the Wi-Fi icon shows the "loading" symbol, or a message such as "Obtaining IP Address" is displayed, your device has not established a connection with the Wi-Fi network. If it seems to be taking too long to connect, turn the Wi-Fi off temporarily, then turn it back on and try to connect again.

■ My device is connected to Wi-Fi, but the login screen is not being displayed
